

City of Menomonie – Under Construction in 2015

Well, not the entire City, but there will be plenty of road construction this summer making it seem like the entire City is under construction. Significant street and trail projects for Menomonie during 2015 include the following:

- South Broadway Resurfacing (12th Ave to 24th Ave) – WIS DOT
- North Broadway Reconstruction (Wolske Bay Rd to Tainter St) – WIS DOT
- Traffic Signal Installation (HWY 29 and Red Cedar St intersection) – WIS DOT
- Domain Drive (Red Cedar St to Stokke Parkway)
- Street Oiling (Meadow Hill Drive, 9th St (south of 21st Av), Tanglewood Dr.)
- Trail Construction South of 1-94 (Red Cedar River to Stokke Parkway)

The largest impact to the public will be the WIS DOT projects on South and North Broadway. The Broadway work will start on May 18th with anticipated completion before school starts in the fall. All of the work will be done under traffic (single lanes with no detour) and some of the turning movements off Broadway will be closed or limited during construction.

We're asking everyone to travel these areas cautiously and safely. Thanks in advance for your patience. If you have any questions, please contact the Director of Public Works (Randy Eide) at 715-232-2207.
